Middle Georgia State University Campus Safety Committee Meeting

- f.** Faculty on Macon has concerns with the parking lot lighting for classes that end at night, as well as camera coverage. (Parking lot at Jones building) – The lighting at the Jones building has already been improved. Officers are instructed to be in that area after the release of classes at night. There is currently only one officer but an additional officer has been added to the FY19 budget for Macon, which will be effective July.
- g.** Possibly creating a new entrance at the traffic light for the Admin bldg. on Macon – A new entrance at Ivey Dr. traffic light should be available within the year. Hopefully the SPLOST fund will be able to aid with this as well.

VI. New Business

- a.** Looking for a more clear answer concerning the distribution of information concerning former student/community member that are banned from MGA campuses.
- b.** Warner Robins Campus also requires parking lot and building lighting
