# NSSE 2020 Selected Comparison Groups

## About This Report

### Comparison Groups

The NSSE *Institutional Report* displays core survey results for your students alongside those of three comparison groups. In May, your institution was invited to customize these groups via a form on the Institution Interface. This report summarizes how your comparison groups were constructed and lists the institutions within them.

NSSE comparison groups may be customized by (a) identifying specific institutions from the list of all 2019 and 2020 NSSE participants, (b) composing the group by selecting institutional characteristics, or (c) a combination of these. Institutions that chose not to customize received default groups<sup>a</sup> that provide relevant comparisons for most institutions.

Institutions that appended additional question sets in the form of Topical Modules or through consortium participation were also invited to customize comparison groups for those reports. The default for those groups was all other 2019 and 2020 institutions where the questions were administered. Comparison group details for Topical Module and consortium reports are documented separately in those reports.

### Report Comparisons

Comparison groups are located in the institutional reports as illustrated in the mock report at right. In this example, the three groups are "Admissions Overlap," "Carnegie UG Program," and "NSSE Cohort."

### Reading This Report

This report consists of three sections that provide details for each of your comparison groups, illustrated at right.

a. The default groups are:  
Comparison Group 1: For institutions not in a NSSE consortium,

Comparison Group 3: All other 2019 and 2020 U.S. NSSE institutions (2019 and 2020 Canadian participants are also included in this group for Canadian institutions).
